TOP PLUS++

‘Innovative design,
superior quality,
plus a whole
lot more...’

Stepping up the ladder in terms of quality you will find **TOP PLUS++**. This is our premium range of laminate-based kitchen worktops. TopPlus++ combines impressive and innovative design features, aimed at satisfying the needs of quality-conscious customers.

Manufactured from high quality materials, TopPlus++ is available in a multitude of vibrant colours. These colours are so closely linked to the latest colours used in Europe’s top fashion houses that ...

... if we stuck a label on them you would probably try to wear them!

TOPFORM

These trend setting colours coupled with a choice of profiles make TopPlus++ worktops a very desirable fashion item for the home. TopPlus++ guarantees you advanced performance and a unique look for your kitchen without complicating the fitting process.

Perfect for renovations, new house builds and basically every kitchen design, TopPlus++ will not fail to impress. Woodgrains for the country style look, granite effects for stylish urban living and the always popular black worktop for just about any look, all feature strongly in this range.

Upstands now available in a limited colour range. Ask your supplier for more details.

TOP PLUS++

Tactile (3600mm only)

Our colours have been specifically selected to reflect the latest trends in fashion and interiors.

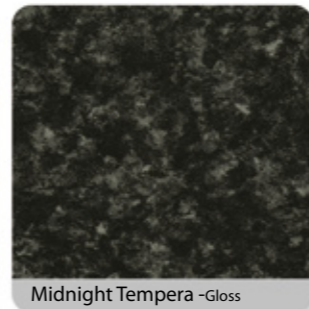

Riverwash texture is a unique texture with a feel of a Natural Weathered Stone.

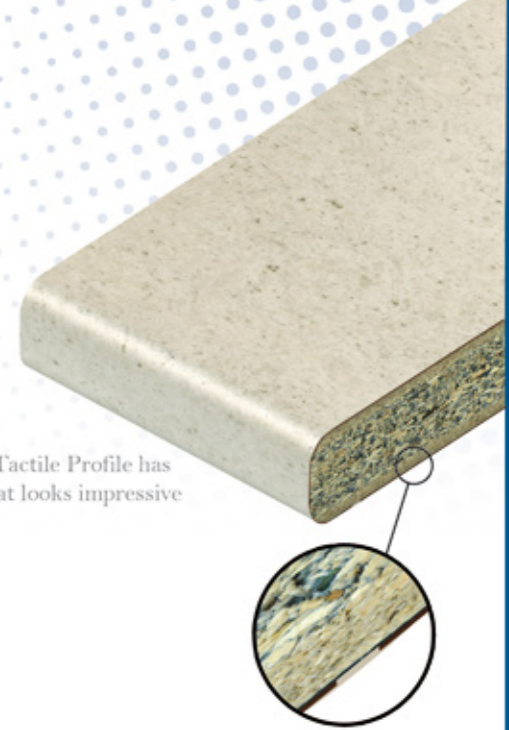

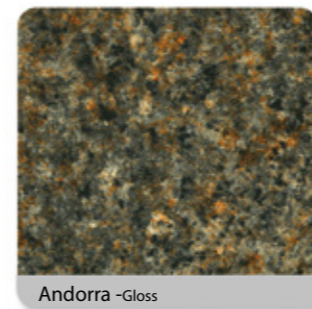

Natural walnut is a woodgrain pattern with an oiled or wax feel to the surface.

Surface texture Slate has raised bumps to give the look and feel of a Natural Slate finish.

Surface texture Etchings gives the appearance and feel of Natural Granite.

All our Gloss textures are "hard Wear" for extra durability over standard Gloss laminates. However great care should be taken when selecting Gloss for high usage kitchens. Caution! - Gloss worktops are prone to scratching and will not be covered under the manufacturer warranty.
